Investor Notice

Investing in our securities involves a high degree of risk. Before making an investment decision, you should carefully consider the risks, uncertainties and forward-looking statements described under “Risk Factors” in Item 3.D of our Annual Report on Form 20-F for the fiscal year ended December 31, 2022. If any material risk was to occur, our business, financial condition or results of operations would likely suffer. In that event, the value of our securities could decline, and you could lose part or all of your investment. The risks and uncertainties we describe are not the only ones facing us. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. In addition, our past financial performance may not be a reliable indicator of future performance, and historical trends should not be used to anticipate results in the future. Future changes in the network-wide mining difficulty rate or digital asset hash rate may also materially affect the future performance of Bit Digital’s production of digital assets. See “Safe Harbor Statement” below.

Safe Harbor Statement:

This presentation may contain certain “forward-looking statements” relating to the business of Bit Digital, Inc. (the “Company”), and its subsidiaries. All statements, other than statements of historical fact included herein are “forward-looking statements.” These forward-looking statements are often identified by the use of forward-looking terminology such as “believes,” “expects,” or similar expressions, involving known and unknown risks and uncertainties. Although the Company believes that the expectations reflected in these forward-looking statements are reasonable, they do involve assumptions, risks and uncertainties, and these expectations may prove to be incorrect. Investors should not place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. The Company’s actual results could differ materially from those anticipated in these forward-looking statements as a result of a variety of factors, including those discussed in the Company’s periodic reports that are filed with the Securities and Exchange Commission and available on its website at <http://www.sec.gov>. All forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by these factors. Other than as required under the securities laws, the Company does not assume a duty to update these forward-looking statements.

Bit Digital Highlights

Bit Digital Inc. (Nasdaq: BTBT) is a sustainability focused generator of digital assets

Large Scale Operations

Bit Digital is an institutional scale digital asset miner, with a fleet of **more than 45,000** specialized computers, diversified across hosting locations in the U.S., Canada, and Iceland

3.7 EH/s
Owned fleet

Capital Efficient

Bit Digital **maximizes ROE** by focusing investment on mining assets, while leveraging strategic partnerships for access to physical infrastructure and low-cost energy

5,904 BTC
Mined through September '23

Positioned for Growth

Bit Digital is **accelerating its expansion** with proprietary channels to access miners (circumventing industry bottlenecks), and pre-negotiated hosting capacity

99% Carbon Free
As of Q3 2023

Sustainability Focused

Bit Digital is running approximately **99%** of its miners on **carbon-free energy**

>45,000 Miners
Owned miners as of 9/30/23

Bit Digital AI

Bit Digital AI is a new business line that will provide specialized infrastructure to support **generative artificial intelligence ("AI") workstreams**

>\$110 million
Contract value¹

Notes: Miner fleet figures including 3.7 EH/s and 46,852 miners represent bitcoin miners owned or operating (in Iceland) as of 9/30/23. 99% carbon-free power refers to approximate run rate as of 9/30/2023 based on data reported by our hosts, publicly available sources and internal estimates. Not a guarantee of future results. ¹Contract value refers to the aggregate expected revenue generation from 1,504 GPUs contracted over three-years.

Balance Sheet Remains a Competitive Advantage

Strong liquidity position to weather potential downturns

Balance Sheet as September 30, 2023:

- ▶ \$73M total liquidity → cash (\$22.1M) + digital assets (\$50.7M)
- ▶ **ZERO** leverage
- ▶ **ZERO** unfunded miner purchase obligations
- ▶ **ZERO** infrastructure capex funding commitments

Capital Markets:

- ▶ **EFFECTIVE** \$500 million ATM (Registration Statement effective with SEC)

Notes: Data as of 9/30/2023. Figures are unaudited. \$50.7 million represents fair market value of digital assets as of 9/30/23

Third Quarter of 2023 Highlights

Strategic Priorities for 2023

Maintain a best-in-class balance sheet

- ▶ Continued focus on prudent balance sheet management through 2023 and beyond

Strategically deploy capital

- ▶ Opportunistic credit investments
- ▶ Prudent miner fleet growth: target to expand operating fleet to approximately 3.5 EH/s by Q1 2024

Expand into Proof-of-Stake (PoS)

- ▶ Target to stake approximately half of our total digital asset position
- ▶ Exploring incubating additional PoS related businesses

Enhance treasury management solutions

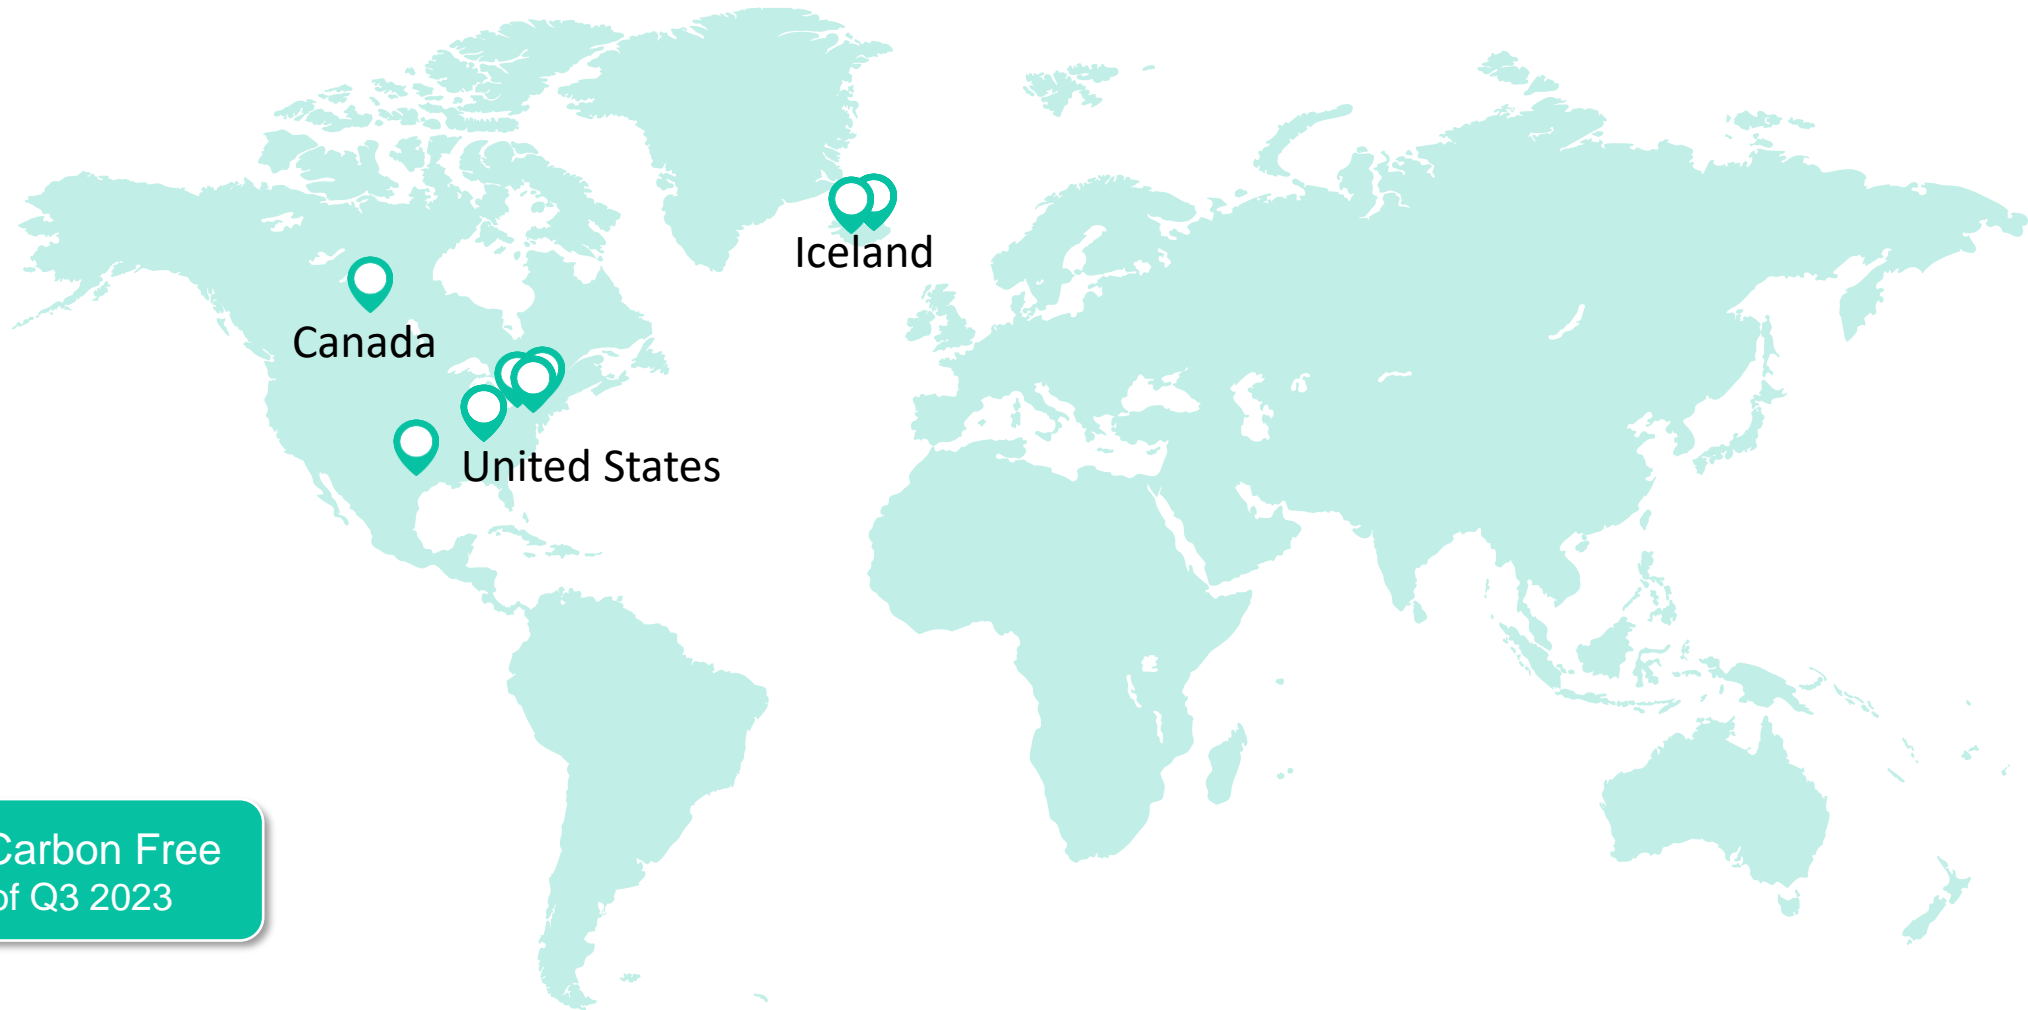

- ▶ Strategic partnerships that can activate structured solutions that may enhance yield on treasury assets and provide downside protection

Continued focus on sustainability

- ▶ Progress towards goal of becoming entirely carbon-free

Geographically Diversified Hosting Facilities

99% Carbon Free
As of Q3 2023

Bit Digital is Infrastructure-light

Hosting strategy designed to maximize shareholder returns and operational resiliency

- ▶ We partner with leading data center operators, allowing us to specialize in mining
- ▶ Our hosting contracts provide more than enough to power our current fleet, providing substantial room for growth
- ▶ Strong pipeline of new potential hosting partners and locations
- ▶ We aim to optimize and diversify our hosting portfolio to reduce counterparty risk, regulatory risk, and site-specific risk
- ▶ Our goal is to secure hosting capacity that is both cost effective and powered by sustainable energy sources

ESG: We are a **Leader** in Digital Asset **Sustainability**

Our fleet was running on 99% carbon free energy as of September 30, 2023, without using carbon credits or offsets

Inspired by the Paris Climate Agreement, the CCA is a private sector-led initiative for the entire crypto community, focused on decarbonizing the cryptocurrency and blockchain industry.

BMC is a voluntary and open forum of Bitcoin miners committed to the network and its core principles. BMC promotes transparency, shares best practices, and educates the public on benefits of bitcoin and mining.

We became the first listed miner we are aware of to engage an independent ESG consultancy to provide ongoing ESG reviews for greater transparency.

Bit Digital covets hosting facilities that draw power from sustainable energy sources. Our mining operations are primarily powered by hydroelectric, geothermal, wind, and solar energy sources.

Our long-term goal is for our mining operations to become entirely carbon-free.

Recognized thought leadership

Bloomberg

THE WALL STREET JOURNAL.

The Bit Digital Flywheel

- ▶ Earn rewards by sustainably mining Bitcoin
- ▶ Exchange Bitcoin mining rewards for Ethereum
- ▶ Stake Ethereum to earn yield and accumulate rewards
- ▶ Use Ethereum yield to reinvest into Bitcoin miners
- ▶ Repeat, creating a perpetual flywheel

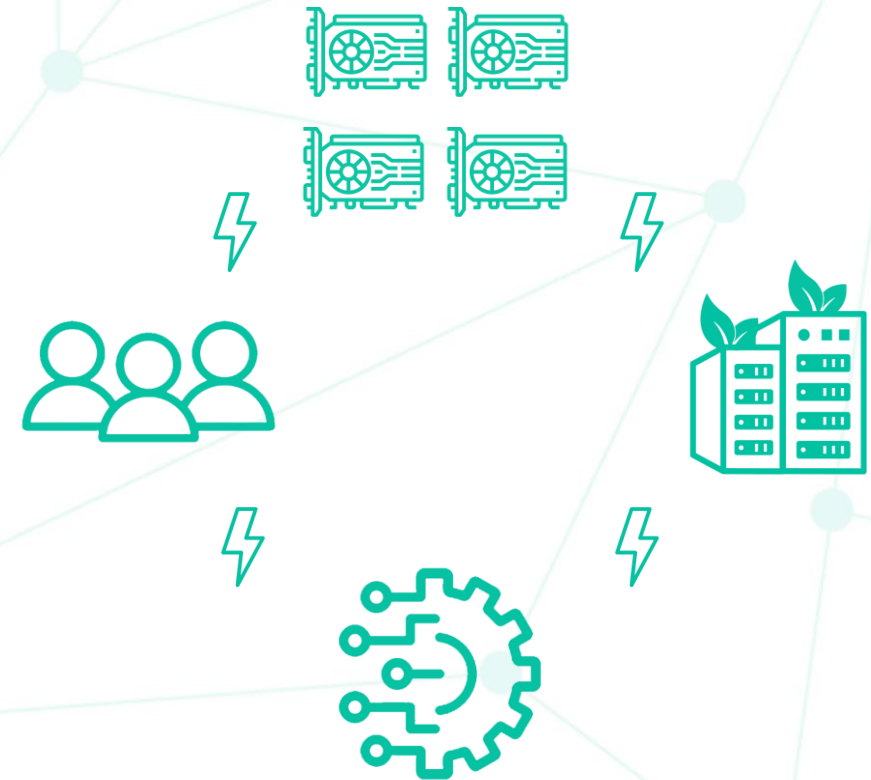

Introducing Bit Digital AI

BIT DIGITAL + **BIT DIGITAL | AI**
NASDAQ: BTBT

Bit Digital AI Overview

- ▶ Bit Digital AI is a new business line that provides specialized infrastructure to support generative artificial intelligence (“AI”) workstreams.
- ▶ Bit Digital has procured a fleet of state-of-the-art NVIDIA H100 GPUs that will be deployed at a Tier-3 datacenter
- ▶ We will provide the GPU computing resources to power our clients’ AI workstreams.
- ▶ Bit Digital AI positioned as a foundational layer in the AI supply chain.
- ▶ Long-term Goal: ***To become the market leading provider of AI infrastructure-as-a-service to the EMEA region¹***

Notes:(1) EMEA refers to Europe, the Middle East, and Asia

Generative AI Poised for Robust Growth

Generative AI's ability to learn from data and produce original outputs is not just streamlining workflows but also pioneering new forms of creativity and problem-solving. With its robust adaptability and escalating advancements, generative AI is set to become a cornerstone of the digital economy, driving a new era of growth that is as creative as it is computational.

McKinsey
& Company

BLOOMBERG
INTELLIGENCE

FORRESTER®

McKinsey estimates that generative AI features stand to add up to **\$4.4 trillion** annually to the global economy

Bloomberg Intelligence forecast generative AI becoming a **\$1.3 trillion** market by 2032, representing a **~42%** growth CAGR from 2020.

According to Forrester's new forecast, generative AI will have an average annual growth rate of **36%** up to 2030, capturing **55%** of the AI software market.

Anchor Customer Secured

Finalized contract to provide GPU resources to a customer for an initial three-year period

Bit Digital will provide its customer with computational power from 1,504 GPUs for three years, representing more than \$35M of annualized revenue to Bit Digital

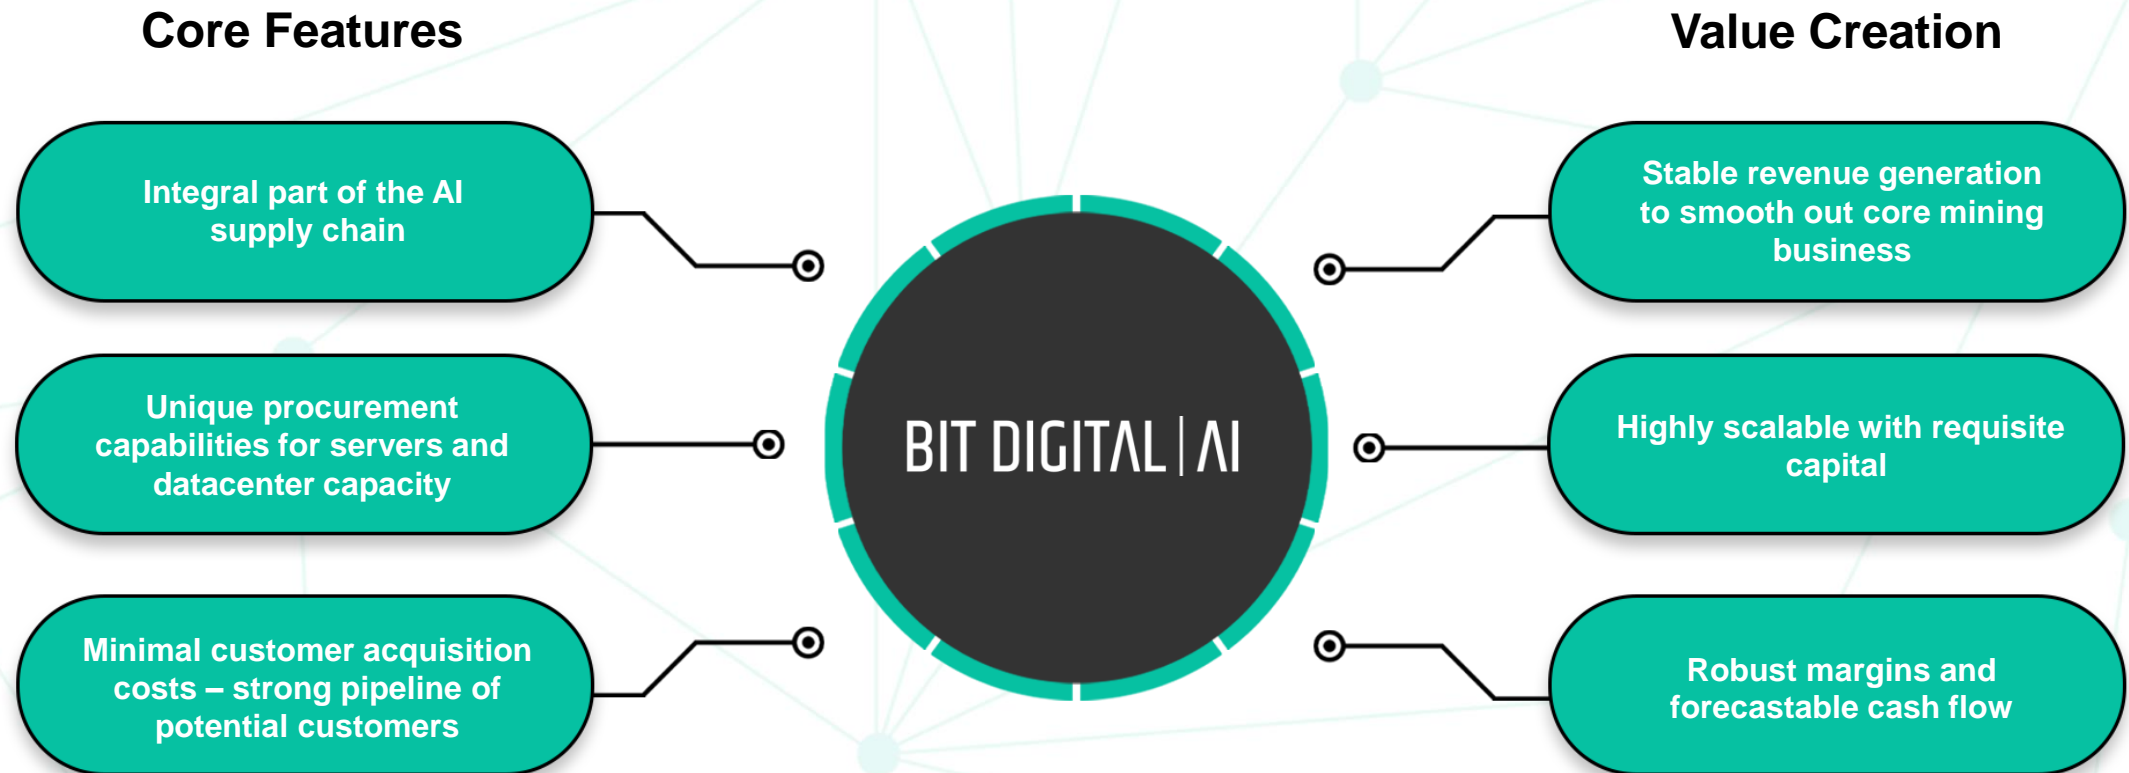

Contract revenue to commence in January at significantly higher margins than the Company's existing business operations

Customer is focused on developing AI applications, including their own proprietary large-language model (LLM), and is well-capitalized following a 2023 funding round

Initial order of 1,504 H100 GPUs to power the first phase of the contract; delivery expected by January 2024

Bit Digital AI to drive long-term value creation

Leadership Team

SAM V. TABAR
Chief Executive Officer

Mr. Tabar served as Chief Strategy Officer of Bit Digital from 2021 to 2023. He served as the Co-Founder and Chief Strategy Officer of Fluidity from April 2017 to June 2020. Prior to this, he held the title of Partner at FullCycle Fund which he served from December 2015 to April 2017. Prior thereto, he served as Director and Head of Capital Strategy (Asia Pacific Region) for Bank of America Merrill Lynch from February 2010 to April 2011.
